MAKE YOUR JOURNEY MEMORABLE WITH SIMINO EBIKES!

We are one of the top manufacturers of eBike in China. Serving more than 50 countries, we are pioneers in designing and developing eBikes that make your cycling experience as exciting as never before.

With our real 1:1 torque sensor technology and innovative features, Simino offers high-quality eBikes that are second to none in terms of efficiency, durability, and comfort.

THE PERFECT BLEND OF SPEED, POWER, AND STYLE

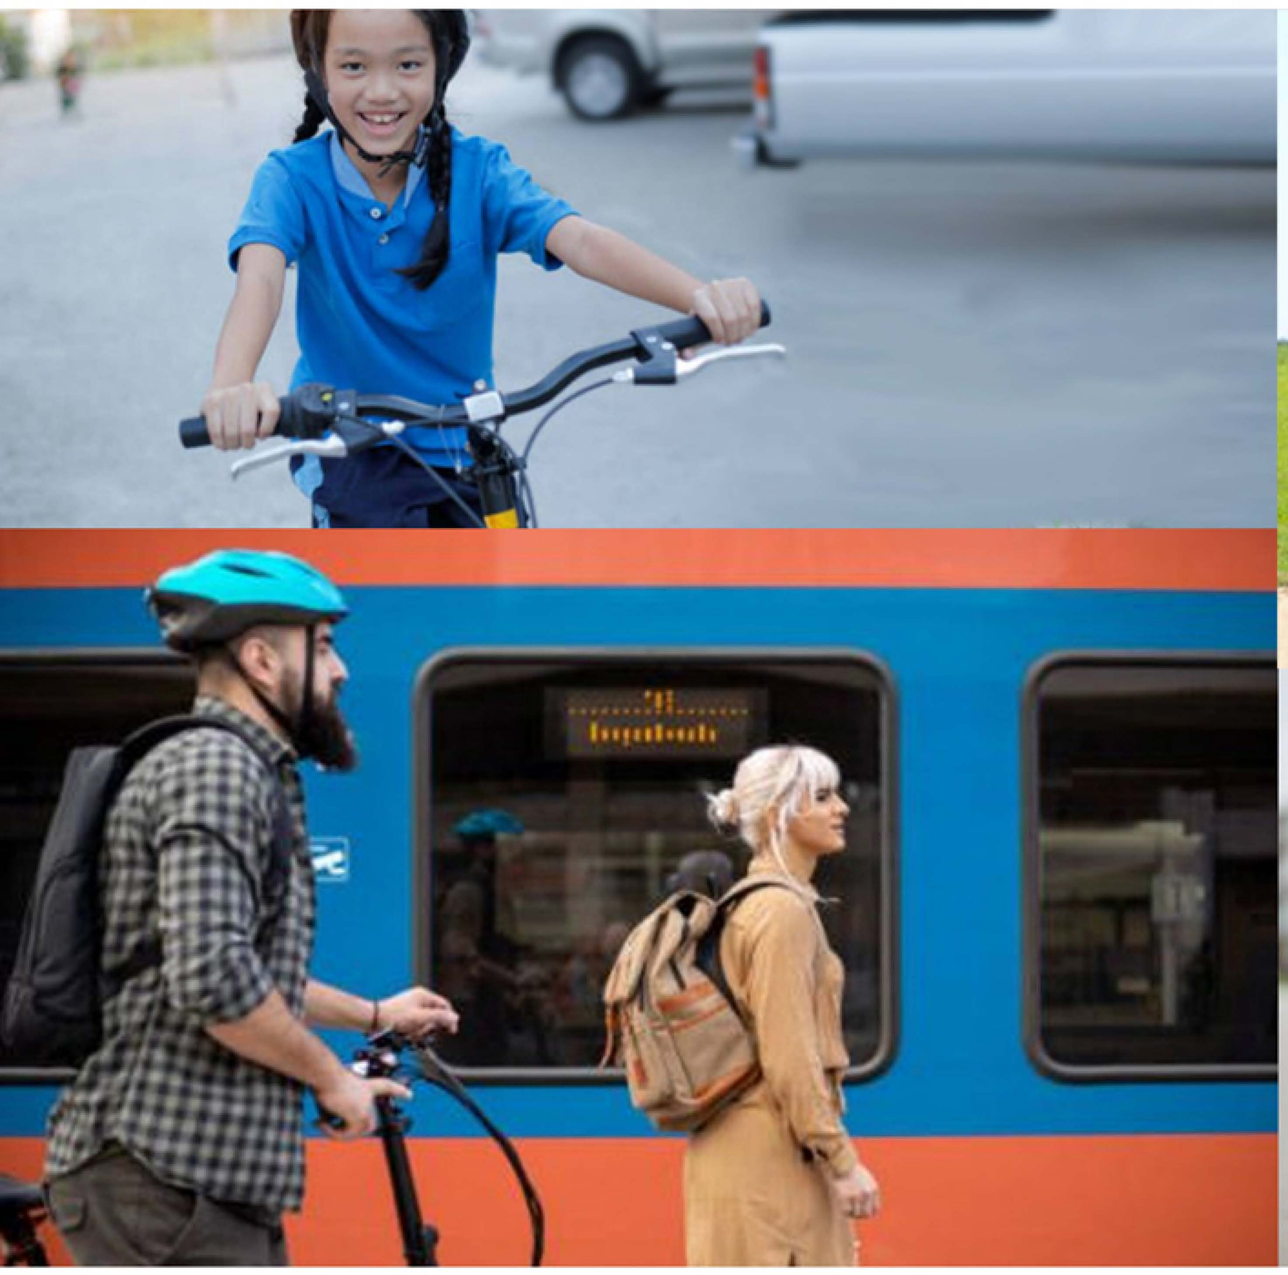

Engineered with powerful Bafang, Hengtai hub motors and Mid-motors, LG cells, shimano Altus 8~12 speeds on Aluminium alloy frame and Carbon fibre frame, Simino's eBikes are well-crafter to be lighter, stiffer, and faster. We make the right use of speed, power, and style to manufacturing eBikes that give unmatched confidence to your riding experience for long journeys in a wide range of terrain in unpredictable weather conditions.

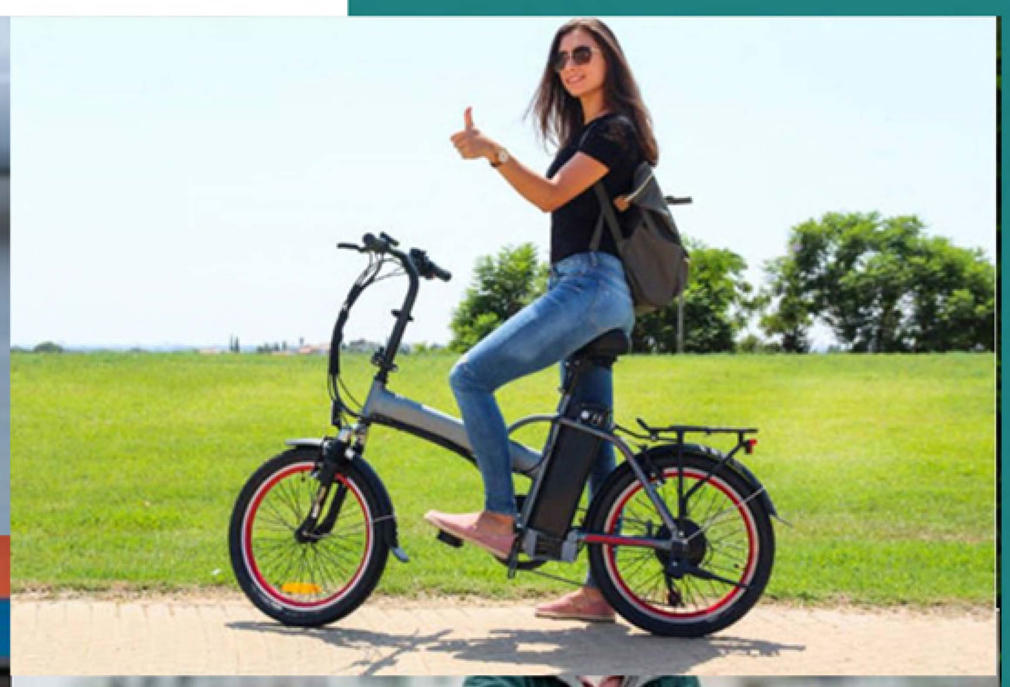

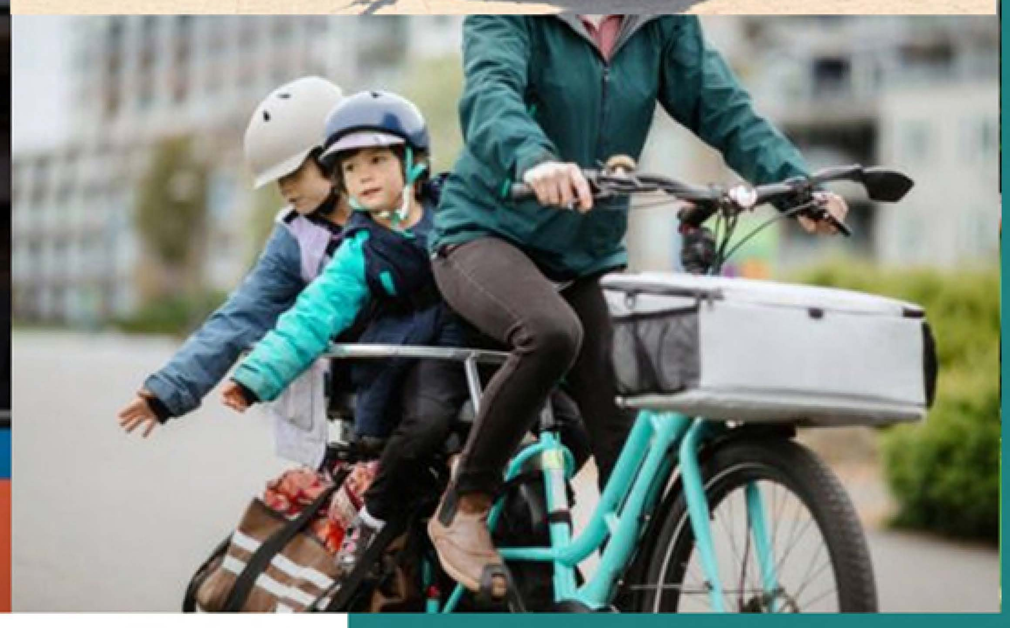

EXPORTING TO 50+ COUNTRIES

Based in China, we serve customers all over the world. We design customized eBikes based on the weather and topographic conditions of different countries to ensure a better riding experience for the customers.

Being a regular participant of the international eBike Expos, we showcase our products at international forums such as Frankfurt Europe Bike Expo, the China International Bicycle Exhibition, and the Canton Fair.

TRUSTED PREMIUM EBIKE COMPANY

Being a top-rated eBike producer, Simino eBike has earned EN15194, EN14764, and TUV certificates from European Commission for manufacturing high-quality electric bikes. Our products are not only reliable but come at the most competitive prices.

We offer a wide segment of electric bikes that can be used for adventure sports in mountains, or as cargo for transporting groceries. Our eBike models include Unmatched, LightStrong, and Arctic Wolf among others.

You can house our foldable eBikes in your car, or you can take them along with you while traveling on the subway or having a meal in a cafe. From navigating through jampacked city roads to cruising through mud or sand, we have solutions to all your needs. Simino has a perfect model for you to match specific performance requirements.

ABOUT US

Established in 2009, Wuyi Simino Industry and Trade Co. Ltd. is a professional manufacturer of high-quality electric bikes. With the manufacturing facility spread over 10,000 square meters in Jinhua City, Zhejiang, China we have dedicated production lines for eBike manufacturing and conversion.

Having an annual production capacity of manufacturing over 30,000 eBikes, we provide our services to more than 50 countries worldwide.

OUR MISSION

'All Terrain eBikes with Unmatched Experience'

We aspire to make eBikes accessible to people from all walks of life, by providing them hassle-free transport in cities and rural areas. While making the cities more liveable by contributing to reducing carbon footprints, Simino eBikes is committed to enhancing your riding experience with better performance, power, looks, and comfort.

WHY CHOOSE US?

We are known for manufacturing premium quality eBikes at a competitive price. We have a team of experienced mechanical engineers and tech wizards who are engaged in innovating technology that changes the way eBikes are manufactured. Moreover, we have our own factory, which helps us deliver orders in a quick turnaround time.

We design eBikes that are perfectly complemented with power, performance, style looks, and comfort. Our own paint line means that we can customize yoru bikes in any color. We have also excelled in providing after-sales services in Los Angeles and Spain to help our customers with any assistance they need. Moreover, our e-bikes come with a 1-year warranty, which means that you can stay assured of receiving the maximum value on your money.

OUR OFFERINGS

Electric Mountain Bike

Built with a powerful aluminum frame, 500W central brushless (Bafang M600) motor, Shimano 12speed Deore sets, and Rockshox Boost air suspension of up to 180mm, our electric mountain bikes enable our customers to cruise through steep hills effortlessly.

Electric Folding eBike

Our electric folding bikes fold down into a compact package that can be transported on trams, metro, buses or a shop conveniently. Its finely designed foldable structure gets ready to ride in just 20 seconds. It ensures a smooth ride across a wide range of surfaces in all conditions.

Electric City Bike

We are well-versed in designing eBikes that are best suited for riding on crowded roads of urban areas while maintaining balance and control over it. The impressive design, 500W motor, and high-capacity battery can make your ride smooth and comfortable.

Electric Fat Bike

With four-inch-wide puncture-resistant tires, our segment of electric fat bikes are well equipped to make your journey hassle-free on all trails. Its low-volume tires ensure a bump-free ride, while a powerful motor with a torque of 80N/M is capable of scaling the steepest climb. It makes your ride more exciting and adventurous by giving you excellent control on riding with Magura MT5 Hydraulic disc brakes, comfortable saddle, and fenders.

Electric Trike

Simino’s feature-rich three-wheeled electric trikes are designed with the strongest aluminum alloy frame, conjugated with a large cargo rack in the back and front metal box, that is capable of transporting up to 150 kg in all conditions. The ultra-durable central brushless motor, comfortable saddle, and low-volume fat tire make this segment of electric trikes an unmatched choice for backwoods adventures .

Electric Cargo

Our electric cargo variant is developed to meet all your day-to-day transport needs. Its detachable loading carrier enables individuals and small businesses to carry goods and transport children safely.

TESTIMONIALS

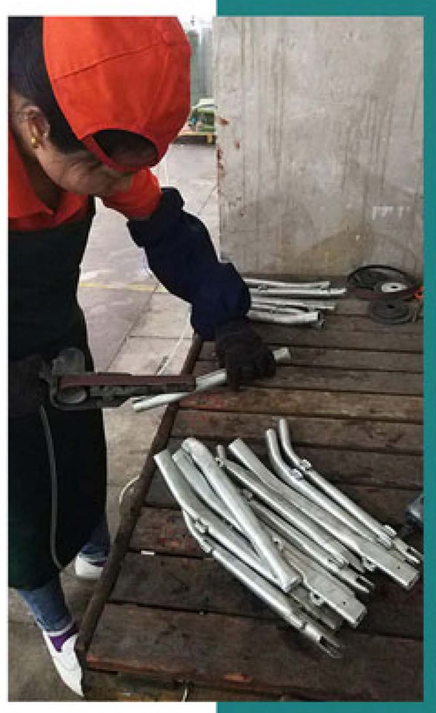

1. I am delighted with the stylish design of Simino's eBike which gives an exceptional performance in all road conditions. Simino's perfectly designed body, powerful motor, and long-lasting battery have made my riding experience super fun.

2. Not only the electric bikes, but Simino's seamless after-sales services never leave us alone whenever there is a need for service. I was well served by Simino's service team when my electric bike witnessed a power breakdown.
